

MARK YES

#LIFELOVELEGACY

You have the power to **DONATE LIFE.**
Be an organ, tissue and eye **DONOR.**

Anyone, regardless of age, race or medical history, can register to be an organ, tissue & eye donor.

There is no cost to the donor or his/her family for organ, tissue or eye donation.

Organ allocation depends on severity of illness, geographic location, blood type & time spent waiting; not social status or wealth.

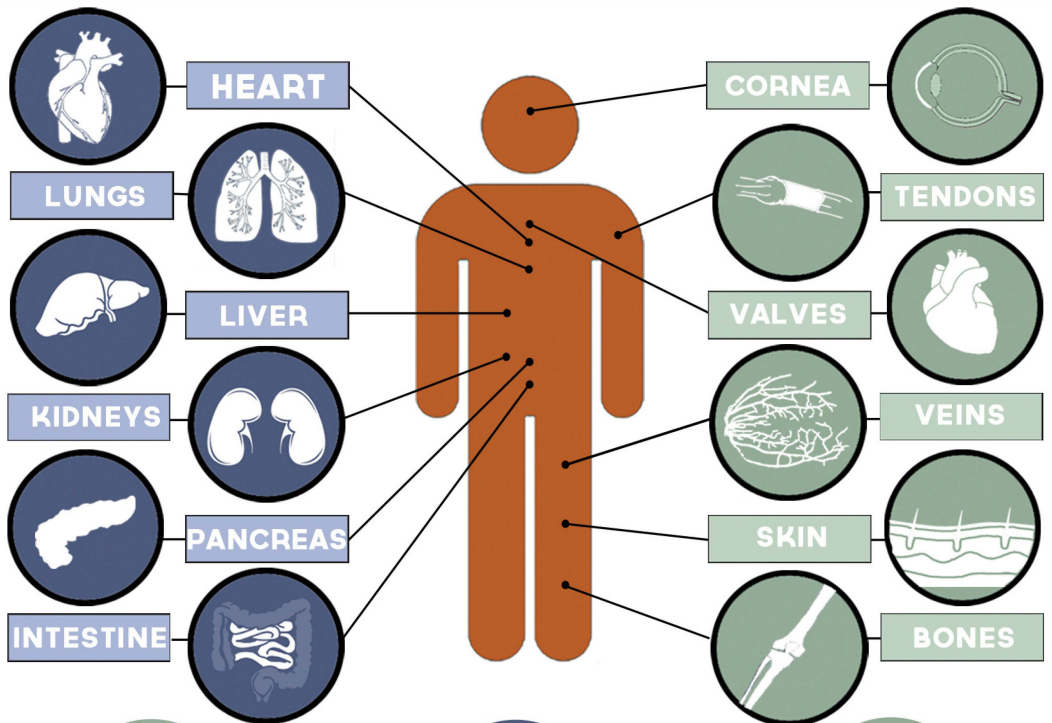

Children, 17 years and younger can be registered donors, however parents have all final legal decisions.

All major religions in the United States support donation and view it as a final act of love and good will.

An individual's donation status does not affect medical care. The first priority of medical professionals is to save lives.

Register at your DMV or online at www.iadn.org.

Share your decision with your family.
