IOWA'S FIRST HOPE ACT DONOR

In 2021, Iowa Donor Network recovered organs from Iowa's first HOPE Act Donor. The HIV Organ Policy Equity (HOPE) Act, which took effect in 2015, allows for the use of organs from HIV-positive donors for transplantation into HIV-positive candidates. More than 220 lives have been saved by HOPE Act transplants.

PARTNERSHIP

In 2021 The Iowa Department of Transportation, in partnership with Iowa Donor Network, unveiled five Tribute Plaques at Driver's License Service Centers in Waterloo, Marshalltown, Fort Dodge, Fairfield, and Des Moines. Each plaque honors a donor, recipient, or living donor from the community in which the plaque is installed.

VIRTUAL DONOR MEMORIAL WALL

Iowa Donor Network's Virtual Donor Memorial Wall gives donor families the opportunity to honor and remember their loved ones who transformed lives through organ and tissue donation.

You can create a tribute in honor of your loved one by visiting:

COMFORT

ERICA REED
DONOR DAUGHTER

"My mom, Connie, passed suddenly from a brain injury in 2015. Thankfully our family had communicated our wishes to each other, so when the time came, we all knew my mom's wishes to be an organ donor. I'm not sure how we would've gotten through this heartbreaking time without having something positive come from it. Knowing she helped better and save the lives of many others is the only thing that brought us comfort in our time of loss."

Please support Iowa Donor Network's mission and those waiting on the transplant list by making a financial contribution in 2022. Not only do we all have the potential to save and enhance lives by being registered donors, but also by financially contributing to further Iowa Donor Network's mission of working together to transform lives through organ and tissue donation.
